WASCO GAMES 2025

The CS Water, Sanitation & Irrigation Eng. Eric Mugaa flags off the 14th Edition of WASCO games in Kisii County

14th Edition of WASCO Games 2025 Officially Flagged Off

The much-anticipated 14th Edition of the WASCO Games, were officially opened in a colorful ceremony graced by Eng. Eric Mugaa, Cabinet Secretary for Water, Sanitation & Irrigation, alongside Mr. Anthony Njaramba, CEO (WASPA) and Managing Directors of Water Service Providers (WSPs) from across the country.

Ahead of the kickoff, participants held a tree planting exercise at Kisii Primary School to reaffirm their commitment to sustainability.

The CS later flagged off the games, followed by the opening football match at Kisii Stadium between Kisii Water and Gatundu Water, setting an energetic tone for the week long competitions.

The games were officially closed by Hon. Paul Simba Arati, Governor of Kisii County, marking a successful conclusion to a week of sportsmanship, unity, and climate action.

Thiwasco's ON-GOING PROJECTS

1. KIANDUTU WATER CONNECTIVITY PROJECT
2. KIGANJO SEWER LATERALS
3. KISII WATER EXTENSION PROJECT
4. CASTLE-KIANJAU SEWER PIPELINE CONSTRUCTION PROJECT.
5. KISII SEWER PIPELINE PROJECT
6. ATHENA SEWER PIPELINE CONSTRUCTION

KIANDUTU WATER CONNECTIVITY PROJECT

The area MCA Hon. Kentams, the Municipal Manager, Thika sub-county Mr. Gathii Kanyi and the MD Thiwasco, Eng. Moses Kinya during the launch of the Kiandutu water connectivity project

PROJECT OBJECTIVES

Water Kiosks Rehabilitation, Pipeline Installation and Leaks and bursts repairs in Kiandutu Settlement.

THIWASCO, in partnership with the County Government of Kiambu and the Kiandutu community, is driving projects to improve water access and reduce Non-Revenue Water (NRW).

Local residents have been engaged in repairing leaks, installing pipelines, and fitting plastic taps and ball cocks, enhancing efficiency while creating casual employment opportunities.

100 meters HDPE water pipe delivered on site

Ground breaking ceremony - digging of trenches for pipelaying

Community sensitization meetings have ensured that projects reflect local priorities, making outcomes both successful and sustainable.

A key highlight of this initiative is the construction of storm drains, delivered in collaboration with the County Government of Kiambu under the leadership of H.E. Governor Kimani Wamatangi and with the support of the area MCA, Hon. Kentams.

This intervention has reduced flooding, improved sanitation, and helped prevent the spread of waterborne diseases, while strengthening trust between THIWASCO, the County Government, and the community.

ON-GOING PROJECTS

UPDATE

KIGANJO SEWER LATERALS

Upgrading Sanitation in Kiganjo

The ongoing Kiganjo Sewer Laterals Project marks a significant step in improving sanitation services for the community. The works involve the casting of durable cover slabs, excavation of trenches, and laying of DN 300mm and DN 200mm sewer pipelines.

2. KISII WATER EXTENSION

Excavation of trenches for OD160 water pipeline

Butt-Fusion of OD 160 pipe

EXPANDING WATER ACCESS IN KISII AREA

The Kisii Water Extension Project is steadily progressing, bringing improved water supply to more residents. Key activities include:-

- Butt fusion of OD 160 pipelines and
- The excavation of trenches to facilitate safe and efficient pipeline installation.

This extension will strengthen the distribution network, enhance service reliability, and ensure that more households have access to clean and safe water. The project underscores the commitment to expanding water infrastructure and supporting sustainable growth within our area of jurisdiction.

Laying of OD 160 pipeline

CASTLE-KIANJAU SEWER PIPELINE

Excavation of trenches for DN200 sewer pipeline

The Castle-Kianjau Sewer Pipeline Project is on-going, focusing on the excavation of trenches for the installation of a DN 200 sewer pipeline.

Once completed, the new line will boost the area's sewerage network, improve waste management efficiency, and contribute to a cleaner and healthier environment for the community. This project highlights the ongoing investment in modern sanitation infrastructure to meet the growing needs of Castle-Kianjau residents.

Laying of DN 200 sewer pipeline

KISII SEWER PIPELINE

Excavation of trenches for laying of DN 300 sewer pipeline

The Kisii Sewer Pipeline Project is progressing with the excavation of trenches for the installation of a DN 300 sewer pipeline.

This development will expand the town's sewerage capacity, improve sanitation services, and reduce environmental health risks. By strengthening the wastewater infrastructure, the project is set to support sustainable urban growth and enhance the quality of life for Kisii residents.

Athena Sewer Pipeline

Pipelaying and Backfilling at Athena Sewer Pipeline

Significant progress has been achieved at the Athena Sewer Pipeline Project, where teams are actively engaged in pipelaying and backfilling works. The exercise involves installing of DN 200 sewer pipelines and backfilling.

Once complete, the project will provide reliable wastewater management, reduce pollution risks, and contribute to a healthier living environment.
